RMAC/LMAC Joint State Lands Mapping Subcommittee meeting

Attending: Michele L. Tremblay (chair), Pete Bowman, Garret Graaskamp, Mark Hemmerlein, Brooke Kenline-Nyman, John Magee, Lisa Morin, Cory Ritz, Larry Spencer, Tracie Sales.

Continued assessing properties in Rockingham County, primarily along the coast.

The group discussed whether tidal rivers are within RMAC jurisdiction. The group decided that since tidal rivers can be designated into the RMPP that they are also within RMAC jurisdiction for SLRs. Strictly coastal properties without streams were determined to be outside of jurisdiction.

Garret asked if this tool could include PWAAB recommendations. Michele noted that this is an RMAC and LMAC process and that PWAAB could have its own process and this should be discussed at a later point.

At Michele's request, Tracie announced that the next meeting will be Thursday, February 1, 2024 and reminded members about the poll sent out on Wednesday to survey availability for meetings on Thursday and Friday mornings, February through early April.

Next meeting: Thursday, February 1, 2024
