

March 8, 2024, 8:30 – 9:30 by Zoom

**RMAC/LMAC Joint State Lands Mapping Subcommittee meeting**

*Attending –*

RMAC: Pete Bowman, Brooke Kenline-Nyman, John Magee, Cory Ritz, Larry Spencer, Michele L. Tremblay (Chair)  
LMAC: Garret Graaskamp, Janet Kidder, Lisa Morin, Steve Wingate  
RMAC/LMAC: Mark Hemmerlein  
NHDES: Tracie Sales  
GUEST: Shane Bradt

The committee assessed properties in Grafton County, starting in the southern portion of the county and working north.

Discussion ensued about small lakes around 10 acres and how to determine if they were within LMAC jurisdiction or not. Officially the LMAC has jurisdiction over lakes included on the Dam Bureau's Official List of Public Waters, but those lakes are not specifically identified in a GIS layer as far as anyone knows. We do have a layer of lakes 10 acres or more based on the NWI layer, but a judgement call is still needed for lakes around 10 acres, especially those with extensive wetland areas adjacent.

Mark H. absent next week, 3/15. Cory will "drive" using the online mapper and Tracie will enter data through ArcGIS Online.

Next meeting: Friday, March 15, 2024
